No. 488.—

THE MARRAS VETERINARY COLLEGE TRUSTEES.

As these trustees mean to believe that intending candidates for employment in Government service are in many cases not aware of the existence of the Madras Veterinary College and of the prospects offered by a veterinary career, the following particulars of the college is published for general information. The rules of the college and the rules of the Provincial and Subordinate Veterinary service are liable to be altered if and whenever required at any time.—

1. The College affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, Municipalities, Local Boards or private employers. The head of the college consists of a Principal, an Assistant Principal, three lecturers and a medical and dental establishment. The responsibility for the discipline and management of the college is vested in the Principal who is subject to the control of the Board of Revenue. Full clinical and other facilities are afforded to meet the educational requirements of students preparing for the diploma in Veterinary science. A Veterinary Hospital, Museum, Library, stock of large and small animals are attached to the college.

2. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 18 years of age at the commencement of the term for which admission to the college is desired. A good, well-grounded knowledge of English is essential. Students are admitted to the College by entrance which will be held by the Principal. Applications for admission should be made in writing to the person that it can, copies of which may be obtained from the Principal's office and they should be submitted as early as possible, the Principal not later than the 31st December of each year and should be signed by the following certificate:—

(a) of age;
(b) of physical fitness and moral character;
(c) that the applicant has passed the Matriculation examination of an Indian University, except in the case of Europeans and Eurasians, who may be admitted, though unpassed, at the discretion of the Principal.

3. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when, and the place at which, he should present himself for general admission. Candidates whose admission will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

COURSE OF STUDY AND EXAMINATIONS OF INTERMEDIATE.

4. The course of study for the diploma seriously extends over three years. The students of each year's course form a separate class. The number of students in each class is actively limited to twenty. Promotion from one class to another is made with reference to results of the annual examination. A student who fails in the class examination for two consecutive years is liable to be warned from the college.

The curriculum of instruction is as follows:—

(i) First year.

- (1) Anatomy (up to Zoology).
- (2) Elementary Chemistry.
- (3) Elementary Botany.
- (4) Medical Hygiene.
- (5) Hygiene of animals.
- (6) Pharmacology (Theoretical and Practical).

During this year students are given practical instruction in bandaging, dressing, banding, casting and securing animals as well as in the use of the instruments and appliances used in ordinary practice.

(ii) Second year.

- (1) Anatomy (the whole including Comparative Anatomy).
- (2) Physics.
- (3) Hygiene (including Bandaging and Dressing).
- (4) Principles of Homeopathic.
- (5) Theoretical Veterinary Medicine and Surgery.
- (6) General banding and instructions in the use of instruments and appliances.

During this year students are required to attend hospital courses and receive clinical instruction. They are also required to attend at the Forge and Pharmacy, to carry out dissections, and to perform operations on the dead subject.

(iii) Third year.

- (1) Equine Medicine and Surgery.
- (2) Bovine and Ovine Medicine and Surgery (including electricity).
- (3) Diseases of dogs.
- (4) Canine Surgery.
- (5) Therapeutics (including Toxicology).
- (6) Study and work in progress.
- (7) Treatment of horses and equine of domesticated animals.

During this year students are required to perform the duties of clinical clerks and assistants in post operations on dead subjects, and afterwards on living animals, to conduct post mortem examinations and generally to carry out practically all the duties appertaining to their profession.

Students who hold the diploma in agriculture are not required to attend the first year's course of study, but are admitted to the subjects of both the first and second year courses at the end of their first year of attendance at the Veterinary College.

All students are required to undergo a course of equitation and gymnastics. A student observing himself without leave from a lecturer or from a practical gymnastic or riding class is liable to be fined.

FEES AND STIPEND.

5. Tuition will be five guineas a year, but a fee of Re. 2 per term is payable by each student to meet the cost of books. Government scholarships are given to students who are poor, and at the discretion of the Council, the right to decrease the amount or alter their mode of payment. Scholarships are given to students who are poor, and at the discretion of the Council, the right to decrease the amount or alter their mode of payment. Scholarships are given to students who are poor, and at the discretion of the Council, the right to decrease the amount or alter their mode of payment.

6. In consideration of the fees taken at the College, graduates will be required to execute an agreement binding themselves to serve Government in the Civil Veterinary Department for at least five years if their services are required so long, and to attend in the Government Hospital out of their Veterinary education in the case they are unwilling to serve Government as required.

TERMS AND TIMETABLE.

7. Each year comprises two terms—a spring session from January to March and an autumn session from July to December. Tables of the times and subjects of lectures in which both teachers and students should adhere will be posted on the notice board at the commencement of each term.

TEACHING AND PRACTICE.

8. (1) In addition to the miscellaneous public holidays, the students are allowed the following vacations and holidays:—

Hibernian vacation (two months)

Hibernian holidays (one week)

Christmas and Easter holidays (unfixed).

Students are required to attend hospital work in term during vacations.

(2) Leave of absence is granted by the Principal only. Scholarships holders may, at the discretion of the Principal, be granted casual leave, with allowances for no more than five days at a time or ten days in the year, but no casual leave will be granted in consideration of other holidays with allowances. Any further leave in consideration of other holidays except such leave for a month will be subject to the approval of the Principal. Leave of absence in each case of leave will be accepted only on the production of a certificate from a duly qualified medical practitioner.

EXAMINATIONS.

9. Examinations are conducted weekly and are held annually in December in all the classes. For admission to the examination candidates must have studied at the college for such time as may be prescribed and have attended at least three-fourths of the year's lectures and have done practical work in their respective classes.

DIPLOMAS AND CERTIFICATES.

10. A diploma as graduate in veterinary science is awarded to students who have gone through the full course of three years' study at the college and have passed the final examination. Each of the students is also able of clinical clerks and assistants and perform their duties satisfactorily and, in addition, awarded special certificates on passing the final examination.

MISCELLANEOUS.

11. The hostel attached to the college provides accommodation for 12 students. Students are admitted to make their own arrangements in their board and lodging. A monthly rent of one guinea for a single room and seven guineas for a double room, i.e., a room accommodating two students, will be charged from each student who wishes to take up his lodging in the college hostel.

PROGRESS OF STUDENTS WHO PASS OUT OF THE COLLEGE.

12. Graduates of the college are eligible for appointments to the following posts in the Provincial and Subordinate services of the Civil Engineering Department in the Madras Presidency:—

Three Deputy Superintendents of Rs. 200 per mensem rising by annual increments of Rs. 25 to Rs. 250 per mensem.

One Veterinary Inspector (First Grade) on Rs. 100 per mensem rising by annual increments of Rs. 4 to Rs. 120 per mensem.

One Veterinary Inspector (Second Grade) on Rs. 85 per mensem rising by annual increments of Rs. 5 to Rs. 100 per mensem.

Thirteen Veterinary Assistants (First Grade) on Rs. 75 per mensem rising by annual increments of Rs. 2 to Rs. 85 per mensem.

Four Veterinary Assistants (Second Grade) on Rs. 55 per mensem rising by annual increments of Rs. 3 to Rs. 70 per mensem.

Twenty-nine Veterinary Assistants (Third Grade) on Rs. 35 per mensem rising by annual increments of Rs. 4 to Rs. 50 per mensem.

Veterinary Assistants when holding independent charge of hospitals and dispensaries whether maintained by Government or by Local Boards and Municipalities will be paid a local allowance of Rs. 10 per mensem each. While so employed, they will also be provided with free quarters or granted in lieu thereof a house-rent allowance not exceeding Rs. 5 per mensem.

All the above posts are pensionable. Veterinary graduates have, in addition, fair prospects of employment as Municipal Cattle Inspectors and as Assistants in charge of Veterinary Dispensaries established by local bodies, private proprietors and Native States. It will be the duty of the Principal to render all reasonable assistance to passed students in securing suitable employment.

The following notification of the Government of India is republished:—

DEPARTMENT OF COMMERCE AND INDUSTRY.

TELEGRAMS.

With effect from the 25th October 1909.

No. 1235—181.—In exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XXII of 1885), the Governor General in Council is pleased to issue the following rules governing the service by radio-telegraph of certain communications between the temporary wireless station at Bombay and ships at sea to have effect from the 15th October 1909:—

Description of service.

1. The service of the temporary wireless station at Bombay will be continuous day and night as long as the ship station is within range.

Form and contents of telegrams.

2. The form and contents of telegrams will be in accordance with the rules for Radiotelegrams as given in the rules published in Notification No. 4975—132, dated the 16th September 1908.

Special rules for radio-telegrams to ships.

3. The address of radio-telegrams for ships at sea should be as complete as possible. It must contain the following parts, *viz.*—

- (a) Name of addressee (with any further particulars that the sender may consider necessary for identification of the addressee).
- (b) Name of ship.
- (c) Name of the port station from which the radio-telegram is to be signalled, *i.e.*, Bombay Radio.

Form of radio-telegrams as sent by ship.

4. All radio-telegrams bear the Service Instruction "Radio" in the preamble.

In radio-telegrams sent by a ship station to the coast station, the date and the time of sending are omitted. They are included as part of the preamble in radio-telegrams to ships.

5. On transmission of a radio-telegram from a ship over the ordinary telegraph system, the coast station inserts in the office of origin its own name, followed by the name of the ship from which it has been received, and inserts on the time of sending in the time of receipt from the ship station. The correct transmission of the telegram to the ordinary telegraph system will then be according to the usual form of transmitting foreign telegrams in India, except that the word "Radio" must be transmitted in the Service Instructions, and appear on the copy delivered to the addressee at the office of destination.

Charge for radio-telegrams.

6. The charge for radio-telegrams between any station in India or Burma and the ships that may communicate with the temporary coast-station at Bombay will be eight annas a word. Half of this will be the ship-station charge and the other half will cover the coast station charge and that for wire transmission in India or Burma.

The charge for a radio-telegram sent in any case by prepaid is paid by the sender. Radio-telegrams for stations other than in India and Burma will not be accepted by the ship station.

Classes of telegrams not admitted in the radio-telegraphic service.

7. Certain classes of telegrams which are admitted in the International Telegraph Service cannot be accepted in the Radio-telegraphic service. They are as follows:—

- (a) Telegrams with prepaid replies.
- (b) Telegraphic money orders.
- (c) Coloured telegrams.
- (d) Telegrams with acknowledgments of receipt except in regards their transmission over the lines of the ordinary telegraph system.
- (e) Telegrams "to follow" the action.
- (f) Paid Service telegrams, except as regards transmission over the ordinary telegraph system.
- (g) Telegrams to be delivered by Express (*i.e.*, by special messenger) or post.

Priority of messages.

8. In the transmission of radio-telegrams priority must be assigned first of all to messages of distress, and then according to the order given in Rule 154 of the Rules published in Notification No. 4972-127, dated the 16th September 1905, *etc.*—

- (a) State (or Government) telegrams.
- (b) Service telegrams.
- (c) Private telegrams.

Undelivered radio-telegrams from ships.

9. When, for any reason whatever, a radio-telegram from a ship at sea cannot be delivered to the addressee, the coast station will be informed by the office of destination; and the latter must be communicated, if possible, to the ship of origin. It will then be the duty of the agent on the ship station to compare the address on the original form with that given in the notice of non-delivery, and to send a correcting Service message if he finds any discrepancy. In the absence of any discrepancy, he should inform the sender of the non-delivery of the message and of the amount charged for it.

Undelivered radio-telegrams to ships.

10. When a radio-telegram reaching a ship station cannot be delivered, that station informs the office of origin by means of a Service message.

Distress signal.

11. As soon as a station perceives the distress signal, it must suspend all correspondence and must not receive work until it has made sure that the communication consequent on the call for assistance has been completed.

Procedure when signals become doubtful.

12. When signals become doubtful, it is important that someone should be put on all possible means of re-trying transmission. For this purpose, the radio-telegram is repeated, at the request of the receiving station, but not more than three times. If in spite of this triple transmission, the signals are still undecipherable the radio-telegram is cancelled. In an acknowledgment of receipt is not

avoided the transmitting station again calls the receiving station. If no reply is made after three calls transmission is not continued. If the receiving station, in spite of defective reception, thinks that the radiotelegrams may be delivered, it inserts the Bureau instruction "Reception doubtful" at the end of the message and sends on the radiotelegram.

Drafts for drafts to be prepared.

13. The originals of all radiotelegrams sent to the Boarding and the documents relating to them must be sent to the Superintendent of Telegraphs, in charge, Central Telegraph Office, Bombay, as soon as convenient. Proper precautions must be taken to ensure the safety of the drafts in the transit. In the case of radiotelegrams it is to be directed to a person on boardship, and signature must be made out at the time of receipt. The ship station will send three duplicates to the Superintendent, in charge, Central Telegraph Office, Bombay, where they will be disposed of as directed in Rule 14.

14. The drafts will be retained by the Bombay Office until all questions regarding transmission, non-delivery, etc., have been disposed of. They will then be sent to the Chief Office, where they will be preserved for twelve months elapsed from the month following that of sending it.

Refunds.

15. Refunds will be governed by Rules 348 to 354 of the rules published in notification No. 800-187, dated the 19th September 1909, subject to the reservations given in Rule 10.

Ordinance, October 18, 1909.

The following Resolution of the Government of India is republished:—

RESULTS OF THE MEASURES ADOPTED FOR THE DESTRUCTION OF WILD
ANIMALS AND VENOMOUS SNAKES DURING THE YEAR 1908.

HOME DEPARTMENT.

No. 5112—1909.

Serial, No 418 October 1909.

RESOLUTIONS.—The total number of persons killed by wild animals was 1,606 in 1907 to 1,165 in 1908, a figure higher than that reached in any of the previous four years. The most noticeable features in the returns are the large increase in the number of deaths attributed to tigers in Bengal, and to tigers, leopards and bears in the Central Provinces and Berar. The number of persons killed by tigers in Bengal was 453, or 160 more than in 1907. The increase took place principally in the districts of Murshid, Ranchi, Cooch, the 24 Parganas, Dargal and Purnea. In the districts of Mandla and Durgah elephants caused 5 and 4 deaths respectively. A special reward of Rs. 200 was sanctioned for the destruction of such of these rages elephants as the Kalyang sub-division of the Durgah district. Rewards of Rs. 200 and Rs. 100 were also sanctioned for certain man-eating tigers in the Monghyr and Hazaribagh districts. Deaths from snakes were 47 in 1907 to 75 in the Hazaribagh district notwithstanding the fact that a special reward of Rs. 20 for every well killed within the jurisdiction of certain thanas had been offered.

Next to Bengal the Madras Presidency had the highest mortality from tigers (170) and the great majority of these deaths (118) occurred in the district of Vengalpetam. In the neighbouring district of Chingle there was a decline from 45 to 18 in the deaths from this cause.

L.S.G.-3

The figures for the United Provinces show that 164 persons met with their death from wild animals during the year 1903, against 129 in the preceding year. This rise in mortality is largely due to the ravages of leopards and wolves in the Kaimur and Fyzabad divisions respectively. In the former division, the number of persons killed by leopards rose from 4 to 55. A man-sitting leopard for which a reward of Rs. 25 had been offered in 1902 remained at large at the close of the year under review, and the amount of the reward has since been raised to Rs. 200. It was found necessary to instruct the Deputy Commissioner of Bahraich to take special measures for the extermination of wolves.

In the Central Provinces, the number of persons killed by wild animals in 1903 (198) was larger than that in 1902 by 24. The marked rise in the number of deaths from tigers, leopards and lions has already been noticed. The mortality from tigers, which rose from 86 to 101, was almost wholly confined to four districts, viz. Balaghat, Bilaspur, Mandla, and Chhind. One tiger is the last animal killed, which was responsible for 18 deaths, was shot after the close of the year. Panthers and lions killed altogether 95 persons, practically double the total of the previous year.

The total mortality amongst human beings caused by snake-bite fell from 21,418 to 19,738. The figures for 1902 were the lowest since 1897 and the still lower figures for the year under review are remarkable. It is satisfactory to note that almost all the previous contributions to the reduction of deaths from this cause. In Bombay and the Punjab only was the mortality higher than in 1902, the increases being 71 and 53 respectively. The number of persons killed by snake-bite continues highest in Bengal and the United Provinces. But in Bengal the number declined in every division except Barisal, where it rose from 893 to 1,178. In Barisal the lower mortality is ascribed in part to the general clearance of jungle consequent upon the spread of cultivation. No reason has been suggested for the decrease elsewhere. The reports regarding the amount of the Lander-Burton road cut off snake-bite are on the whole encouraging, although the most uncertainty as to the elimination of the snake is the majority of crystalline outcrops. The Commissioner of Agartala reports that the villagers are afraid of the Lander-Burton locality, while the Magistrate of Chittagong states that there is a general complaint that the forests are not sharp enough to make proper incidents when the snake is killed. The results generally reported, however, seem to justify continued efforts to popularise the treatment. In Barisal the forests are reported to have been used in some cases as cattle with success.

3. The number of deaths (590) caused by 'other animals' was at usual height in Bengal (239) and Eastern Bengal and Assam (163). In the former province 167 and in the latter 129 of these deaths were due to crocodiles, while wild boars killed 35 persons in Bengal and wild dogs caused 34 deaths in Eastern Bengal and Assam.

4. The number of cattle killed by wild animals during the year 1903 was 87,497, against 88,452 in 1902. The figures for Bengal, the United Provinces, Burma and Bombay, however, show a marked rise, and those for Madras, Eastern Bengal and Assam, and the Central Provinces and Bihar still stood very high. The increase in Bengal was most noticeable in the Bhagalpur division. The number of cattle killed by wild animals in the United Provinces in the past two years shows a remarkable increase, but it is to be noted that the figures in 1902 were abnormally low. Increased cattle deaths in the Alampur district are attributed to the wholesale destruction of game, which has resulted in a serious diminution of the natural food supply of tigers and leopards. In the Allahabad, Lucknow and Fyzabad divisions great damage was caused by wolves, and in Kaimur by wild dogs, in spite of special measures taken by the Forest Department for their extermination. In the Punjab the District figures show some noticeable variations. In Amritsar 36 cattle are reported to have been killed by hyenas in 1903 and none by leopards, whereas in 1902 leopards killed 26 and hyenas none. The Government of the Punjab thinks it possible that many deaths for which leopards or wolves were really responsible were attributed to hyenas because a hyena was seen descending the corpse. The number of cattle killed by leopards in Kangra dropped from 1,122 to 630 and in Shimla from 23 to 4. In Barisal the number of cattle killed by wild animals rose from 11,497 in 1902 to 15,918. The largest increase occurred in the Shariat district where the number rose from 256 to 772, 604 being attributed to leopards. In Eastern Bengal and Assam, there was a satisfactory decrease in the cattle kill. There was a marked rise, however, in the Chittagong district, attributed to the necessity for grazing cattle in the hills owing to scarcity of grass in the plains. In the Central Provinces tigers were responsible for three-quarters of the deaths amongst cattle, Chanda, Roper and Mandla being the districts which suffered most from these animals. The number of cattle killed by snake-bite rose from 9,839 in 1902 to 10,739. The rise is most noticeable in the case of Bengal and Barisal.

3. The number of wild animals destroyed was 17,328, as compared with 15,721 in 1897. All dangerous species were destroyed in larger numbers, the total for tigers being 1,616, and for leopards 5,359. The relation between the number of human beings killed by tigers and the number of those animals destroyed shows various variations. Thus in Eastern Bengal and Assam only 22 persons were killed by tigers but 528 tigers were destroyed; in Burma the figures are 46 and 233. In Bengal on the other hand the deaths from tigers numbered 656 but only 126 tigers were destroyed and the corresponding figures for Madras were 270 and 83. The total amount of rewards paid for the destruction of dangerous animals rose from Rs. 1,55,528 in 1897 to Rs. 1,65,168 in the year under review. The total number of snakes killed was also larger, viz., 70,722 against 65,724, although the amount of rewards paid for their destruction fell from Rs. 1,350 to Rs. 2,375.

4. The number of Bonuses issued under the Indian Arms Act, 1878, in Forms VIII and XI was 57,532 against 11,734 in 1897. The total number of Bonuses in force during the year 1900 was 127,184 against 65,583 in 1897. The large increase is mainly due to the fact that prior to 1898, only Bonuses in Form XI were shown in the returns relating to the measures adopted for the extermination of wild animals and venomous snakes, except in the case of Burma, while Bonuses in Form VIII are included in the returns. For 1899, in consequence of special orders issued to that effect in the course of the year.

3. Tanden will be absent on Monday the 12th November 1966 and must reach the District Forest Officer, Sonch Mulaban, at Nagpur at 3 p.m. on that date.

¹ T. Sander to be conscribed. ² T. Sander for Dr. J. J. Sander, Dr. J. J. Sander.

4. Students must be made responsible for each exercise of cluster from (1) to (17).

4. Tendency must be made separately for each category of matter from (1) to (17).
In the case of items (1) to (8) and (9) to (17) in the table list, the tendency must specify a rate for each measurable or scale.

In the case of loss a rate certificate must be tendered

5. Each tender for items (1) to (4) and (8) should be accompanied by an earnest money deposit of Rs. 200 in currency notes, and for the remaining items (5) and (6) to (12) by an earnest money deposit of Rs. 100 in any currency note. These deposits will be returned at once to successful tenderers and in the case of unsuccessful tenderers will be adjusted towards the first instalment of the purchase money payable under the contract.

6. Successful tenderers must sign an agreement within ten days of receipt of District Forest Officer's acceptance of his tender. The conditions of the agreement to be entered into can be obtained by reference to the District Engineer, or the Engineer, Bangalore, any time before the sale. The successful tenderer will pay a deposit equal to 10 per cent. of the purchase money into Royal Treasury or Colonial Bank as security for performance of the contract and produce the Treasury receipt at the time of signing the agreement. If he fails to sign the agreement and to deposit the security amount, the earnest money deposit received with the tender, will be forfeited to Government.

7. The tender can be inspected at any time before the sale by intending purchasers.

8. After the sale is over, purchasers must accept the departmental classification and measurements of the timber.

9. Successful tenderers will be required to pay the whole sale amount by the 25th February 1910 unless the individual sale amount of any purchaser exceeds Rs. 50,000 in which case he will be required to pay the whole amount before 31st March 1910.

10. No removal of timber will be allowed before an invoice is paid in full.

11. The District Forest Officer reserves the right to accept or reject any tender, without assigning reasons.

ENDERS FOR CLEARING SILT FROM THE CHANNELS OF THE ATTUPUT TOTALUR, KATYUR AND VALLUR FACTORIES OF THE KANNUR CIRCLE FOR THE YEAR 1910

Notice is hereby given that sealed tenders will be received by the Assistant Commissioner of Silt, Alibair and Customs Department, Chingleput sub-division, at the Office of the Inspector, Madras District Circle, Madras, up to 2 p.m. on 23rd December 1909, for the following works of the Kannur Circle, for the approximate amounts stated against each—

	Rs.
(1) Clearing silt from the channels of the Attuput factory (inclusive of the Paluvank portion)	1,400
(2) Clearing silt from the best channels of the Vepulur factory	2,100
(3) Clearing silt from the best channels of the Kattur factory	1,500
(4) (a) Clearing silt from the channels of the Vallur factory	2,300
(b) Clearing silt on soundings from various channels of the Vallur factory	100

2. The cover accompanying the tender should be addressed to the Assistant Commissioner, Chingleput sub-division, care of the Inspector, Madras District Circle, Madras, accompanied by a deposit of Rs. 100 for earnest money.

3. The Assistant Commissioner, Chingleput sub-division, reserves to himself the right of rejecting any or all the tenders without assigning any reason, and no reply can be expected by the unsuccessful tenderers.

4. Detailed estimates should be prepared only after the rules are over and may be seen on application either at the Chingleput sub-division Assistant Commissioner's office or at the Kannur Circle Engineer's office at Vayambur on all working days between the hours of 12 noon and 2 p.m., as soon as they are ready after the close.

5. The work should be executed as follows.

6. Tenders which contain conditions of any sort will be rejected.

7. The addition of each tenderer should be given in full.

8. The tenderers should not submit satisfactory proofs of their status, experience in contract work and good conduct.

9. Payment should be in the form of a biller written in English with the percentage below the actual rate, which at 2 annas 6 paise per cubic yard and 4 annas for all the balance, of which they are willing to undertake the work and execute them to the satisfaction of the Deputy Commissioner, Coastal Division, distinctly specified therein. The tenderers will be given to understand that they will be paid on the amount of work actually done the day after at a rate depending on the position of the channels and not necessarily on the previous made in the estimates. To safeguard new silt from old, silt should be spread over the channel banks before fresh silt is thrown over.

10. Measurements or soundings will be made only on request of the channels of the Vallur factory and not in the estimate for the purpose.

11. The successful tenderers will be required to execute, within ten days of intimation of acceptance of their tenders, the preliminary agreement which will be prepared in the Kannur Circle office.

12. In default of tenderers' attendance at the office within ten days after dispatch of intimation and to be by post, the amount of Rs. 100 deposited by him will be forfeited to Government.

13. The deposit of the unsuccessful tenderers will be returned as early as possible after the opening of the tenders.

199. Read, approved and recorded the minutes of the proceedings of the previous meeting held on Friday 20th September 1909.

200. Read and recorded G.O. No. 141, Marine, dated the 11th September 1909, passing orders on the application of the Port Trust Board for the grant to the Trust of certain portions of the free and unencumbered use of the C.P.W. Battery and of a part of the sandy section to the south of the Madras Harbour and within the military zone adjoining the Lighthouse Battery.

201. Read G.O. No. 244, Marine, dated the 21st July 1909, requesting the Port Trust Board to report as to the feasibility of revising the rates of light dues for the Port of Madras which were prescribed in G.O. No. 285, Marine, dated the 20th June 1904.

Resolved that, in the opinion of the Board, the schedule of marine rates of port dues, so far as they go, need no revision; but in view of the heavy security resulting from the use of proper hatch covers, better gear, launch facilities, and intelligent delivery, the owners of the new class of large barges ought to be permitted to pay a loading or unloading charge at which the maximum should be one rupee per ton of cargo, the charge to cover all services between ship and shore.

202. Read correspondence with Messrs. Dymally & Co. on the subject of the rate of harbour dues on school supplies in bags.

Resolved that, for the present, school supplies in bags be charged harbour dues on the increased rate for specially, with, in addition, such further charges for storage, crating, etc., as may occur.

203. Read and recorded G.O. No. 339, Marine, dated the 20th September 1909, approving the action of the Port Trust Board in extending the period of probation of Mr. R. G. Ganga, Trustee Manager, up to the 31st March 1910.

204. Received Mr. L. R. O'Donoghue's acceptance from the 1st October 1909 of the engagements offered to him in Port Trust Board Resolution No. 175, dated the 20th September 1909.

205. Read and recorded G.O. No. 302, Marine, dated the 9th October 1909, regarding a letter from the Government of India on the subject of the varying highness designated to the parts of the Madras Presidency by the Meteorological Department when storms are approached.

206. Received G.O. No. 288, Revenue, dated the 12th September 1909, regarding the Government-owned, workable shed which has been a part of the Capital House, land owned by the Port Trust Board at a cost of Rs. 105 per annum, of which one half will be credited to Government and the other half to the Madras Port Trust.
